BETTER FOR THE ENVIRONMENT - BETTER FOR YOU

Every piece in the Resource Furniture collection is thoughtfully designed and crafted with high-quality, ethically and sustainably sourced materials. The premium Italian wall beds are constructed with over 90% recycled and reforested wood products, all lacquers, paints and glues are completely water-based, and absolutely no formaldehyde is used in the manufacturing processes. Your new furniture does not emit volatile organic compounds (VOCs), which results in better indoor air quality for healthier living.
